Are you tired of paying clearinghouse fees?

2Klean Claims is software that allows medical offices to transmit their claims electronically to ALL insurance companies who accept direct claims in the new HIPAA compliant ANSI format. The software uses a print image of an outputted HCFA 1600 form and formats it to the ANSI 4010 format required by Medicare, Medicaid, Blue Cross, and Blue Shield. The software supports both 837 and 835 transaction sets. The software directly connects to Lytec or Medisoft. With 2Klean Claims you can also auto post payments directly into Lytec or Medisoft. **NEW!** The software now **supports UB-04 claims**.

2Klean Claims features no per claim or monthly fee.

Save \$500 off 2KMobile Link with Medisoft Verison 16 Purchase

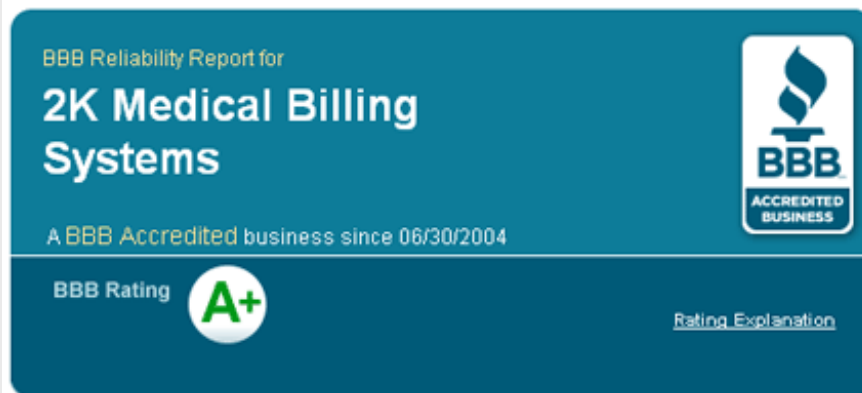

Do you need to access Medisoft while out of the office?

2KMobile Link with a Patent Pending enables Medisoft users to schedule appointments, create superbills, and access patient information from any device with Internet including laptops, desktop, and cellular phones. With 2KMobile Link Medisoft users can enter charges up to five times faster with the customizable pull-down menus and copy superbill functions. 2KMobile Link supports any cellular phone with Internet access including the Blackberry Storm, Apple iPhone, Google Droid Phones, and any Windows Mobile 5.0 or higher device.
